Dear John,

On behalf of the St. David's Society of Minnesota, I would like to thank you for being such a wonderful part of our 100th anniversary celebration.

We have had many notes and communications praising the event, and especially your wonderful music. When we were planning the day, one of our firm ideas was that it should feature excellent entertainment of a caliber to match the importance of the celebration. You and Billy surely did just that.

We are also extremely grateful for your Friday night presentation on Welsh poetry. There were a number of people who attended who have not come to any St. David's events previously, and several of them joined the Society the next day. You have a magic with both music and language, and we are most grateful that you shared this with us.

It is our hope that we may be part of your audience on many other occasions, as many of us were in Wymore, and now here in Minnesota. Until we have that opportunity, we will be enjoying Tramor's sound on our CDs.

Sincerely,

Handwritten signature of Marveen Minish in cursive script.
